

NATURE FACES

You can use the blank face template or you can draw your own face outline. Or make a freeform face. The main thing is to have fun creating a face. Make any kind of face you like!

MATERIALS

- Blank paper or template
- Any art supplies
- Any natural found objects you want to include

DIRECTIONS

- Take a walk outside and see what you can gather for your face. As you are collecting, think about the features you want to include like eyes, nose, mouth, ears, hat, necklace, earrings, eyebrows, etc.
- Begin arranging your materials until you come up with a face you like. Don't worry if you have to go find more materials.
- You can glue your face in place if you like or you can take them off and start again.
- Have fun!

Variation: If it is rainy or cold, try an indoor variation using toys, blocks and craft supplies to make your face! Be creative!
